7:00 - COMMEMORATE 10TH ANNIVERSARY OF FRENCH TECH, THE 10 STARTUPS GAME CHANGERS

The applicants for these TECH FOR FUTURE awards began by presenting their applications from October 4, 2022, to January 11, 2023, before being selected throughout France (Tour de France which lasted from January 19, 2023, to February 23 2023), within six categories

The applications were then submitted to the vote from February 27, 2023, to March 10, 2023.

Original prizes have also been planned such as the "Coup de Coeur" Prize, the "Impact" Prize, the "International" Prize but more rarely the "Overseas" Prize which for once allowed three winners to be short lists, in France's overseas territories (Carribbean Islands, Pacific Island, & La Reunion). Often these territories, although belonging to France, are excluded from French competitions and challenges and in particular in the digital field... It is therefore a one of a kind, gesture of inclusion, in terms of National contest, made by La Tribune Journal.

Some of the winners (two of them), are also concerning handicap/disability purposes in the service offered by the Assistive Technology towards the disabled. That is also a nice good deed, or positive gesture showcased by La Tribune.

The only negative remark, is the non accessibility for reduce mobility Persons, from the ground for to the 1st floor at the so called Le Grand REX, which emptied a Wheelchair bound participant journalist to join the cocktail, by the end of the event....A shameful, ending, that prove how Inclusion towards disability in France, could be just only elegant speech, not matching with reality, when it comes to genuinely include the 15% of disabled in France...

This must still be improved...

The Paris-based National Jury then deliberated on March 13, 2023, before meeting the finalist winners on April 6, at Cinema Le Grand Rex. This is the biggest event of a Tech carried out by the Journal a Tribune, whose General Manager Tatiana, is delighted with the scale of the event, coinciding with the anniversary of the 10 years of French Tech and the 91 years of the Grand REX.

Le Grand REX is a legendary, and most beautiful frank theater of Cinema, since 1932 with its mythical Art Deco facade, modeled on the architecture of the first hours of cinema in the United States.
